

How to Manage Client Domains, Hosting, and WordPress Logins Without Headaches

Client said: Complete website design, will connect domain later.

First login message from client was incorrect.

Client sent GoDaddy logins but no hosting was found there.

Asked client for hosting details.

Client sent WordPress.com logins instead of hosting access.

Asked for wp-admin URL; WordPress not installed on domain yet.

Asked client for invite; client still has no hosting.

Explained to client what hosting is, repeatedly.

Received GoDaddy logins again, still no hosting.

Recommended our hosting; client still unclear on hosting concept.

Meeting held; client bought hosting but domain connection not confirmed.

Hosting login for Hostinger not confirmed in meeting.

Sent domain account confirmation messages; client refuses to share logins, asks what to do.

Asked client to install WordPress on Hostinger, since we have access there.

Asked client to update IP address to point domain to Hostinger hosting.
