Please confirm if there are any further changes needed so I can proceed accordingly.

Never:

- Share passwords in delivery

Always:

- Ask client to share access **only if they want you to transfer**
- Keep backups on your own storage

? ADDITIONAL SCENARIOS YOU MAY FACE (Handled by SOP)

✓ Third-party tools (Fillout, Calendly, GA, Stripe)

→ Feature delivered + temporary setup = complete delivery

✓ Large sites (files too big)

→ Preview + screenshots = valid proof

✓ Client delays content

→ Extend delivery, don't deliver

✓ Client disappears forever

→ Archive + backup = protected

? GOLDEN RULE (PIN THIS)

“ Deliver when scope is complete.

“ Proof matters more than perfection.

“ Language matters more than intention.
