

# How to close a project

## Project closing steps:

- Confirm Login Details are saved (client website list) and make sure sent to client... [Login Details](#)
- Make AllInOne Backup from the client's website and delete (All In One Plugin) If Clinte has changed the Login Make a backup from our subdomain
- Send backup to the client if the Review is done else save it on the computer and send him after the review time, which is 30 days. And assign a label (review left) to that client
- Changes labels on Fiverr As to (Marshal)
- Delete the Subdomain but first confirm you have made a backup of this same website may be from the client domain
- Change the label to close on Clickup.
